

# America Recycles Day Activity Packet

Celebrate on  
**2021**  
November 15th

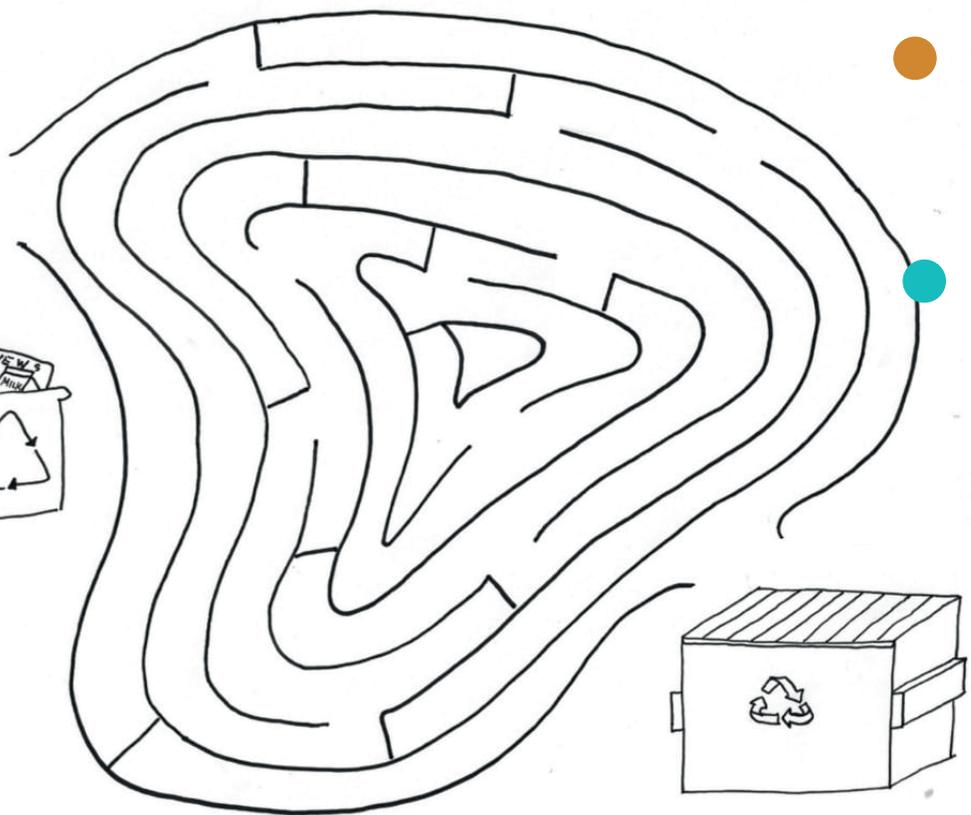

# recycle coach

To learn more about what is and isn't recyclable, download the Recycle Coach app today

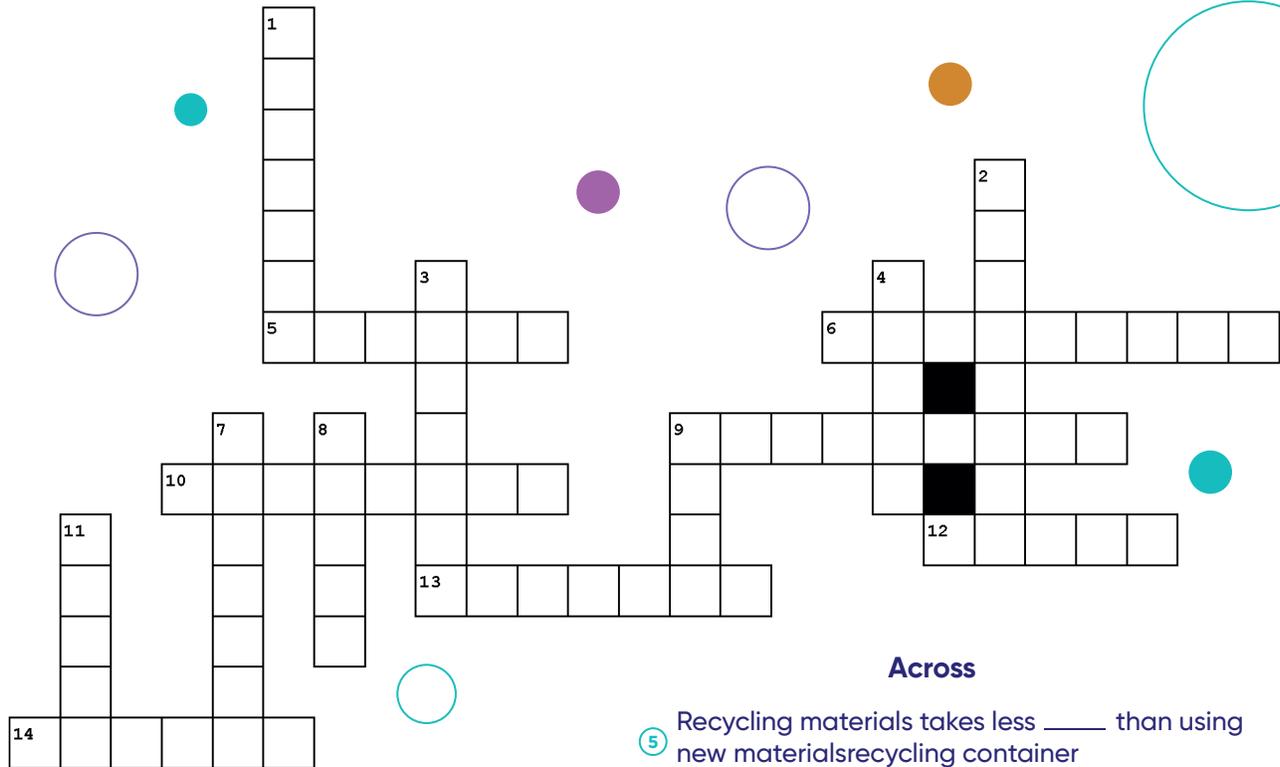

# Recycling Maze

**Directions:** Help Deja find her way through the maze so she can empty her recycling bin into the recycling container

# Recycling Crossword

**Directions:** Read each clue and fill in the appropriate recycling term in the boxes.

## Down

- ① The process of breaking down materials to be manufactured into new products
- ② Trash goes to a \_\_\_\_\_
- ③ Able to decompose
- ④ Made from trees
- ⑦ Made from petroleum
- ⑧ All containers should be \_\_\_\_\_ and clean
- ⑨ Recycled material holders for your home
- ⑪ To use again

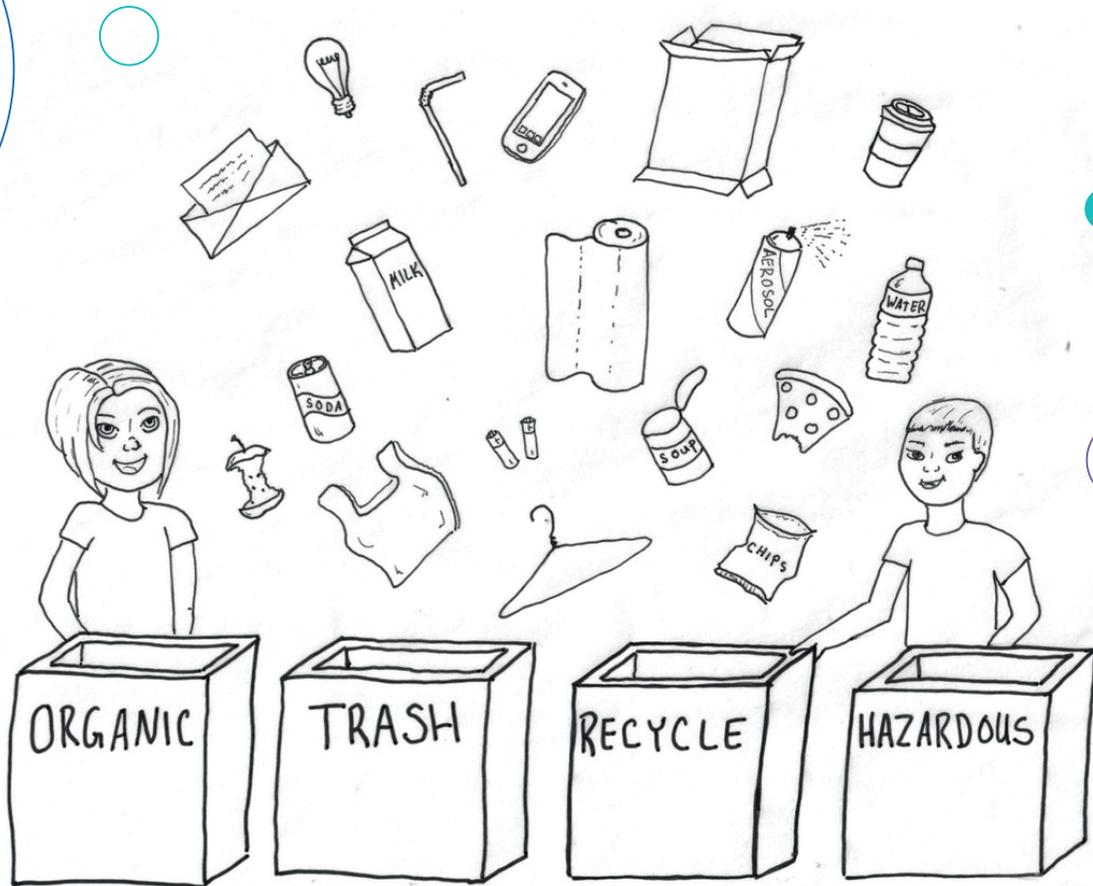

## Across

- ⑤ Recycling materials takes less \_\_\_\_\_ than using new materials
- ⑥ What boxes are made of \_\_\_\_\_
- ⑨ These items inside your devices should only be recycled at specialty locations (not your curbside bin) due to their risk of fire
- ⑩ Material soda cans are made from \_\_\_\_\_
- ⑫ Material that can be broken down into sand
- ⑬ What we should do with leftover foods
- ⑭ To use less \_\_\_\_\_

# Sorting Game

**Directions:** Help Taylor and Kai sort these items into the correct bins. Look up each material in the What Goes Where search tool on the Recycle Coach mobile app, then draw a line to the correct disposal bin. Color in the items as you go.

# Recycling Word Search

**Directions:** Find and circle all the words hidden in the grid.

# Connect the Dots

**Directions:** Connect the dots in the correct number order.  
You can color in the picture once you're done.

# Recycled Paper Craft

**Directions:** Did you know you can make your own recycled paper at home? It's actually super easy! Follow these steps:

**Step 1:** Rip up your old scrap paper and soak it in water. If you want to add color into it, just add some colorful construction paper to the mix.

**Step 2:** Mash the paper mixture up or use a blender to turn the paper into a watery pulp then add it to a basin larger than your paper frame.

**Step 3:** Dip your old picture frame that has a plastic or metal mesh screen into the basin so that the frame fills with pulp.

**Step 4:** Lift and drain as much water as you can out of the frame. Use your hand to even out spots as needed.

**Step 5:** Use a sponge or rag to flatten out the pulp and absorb some of the water.

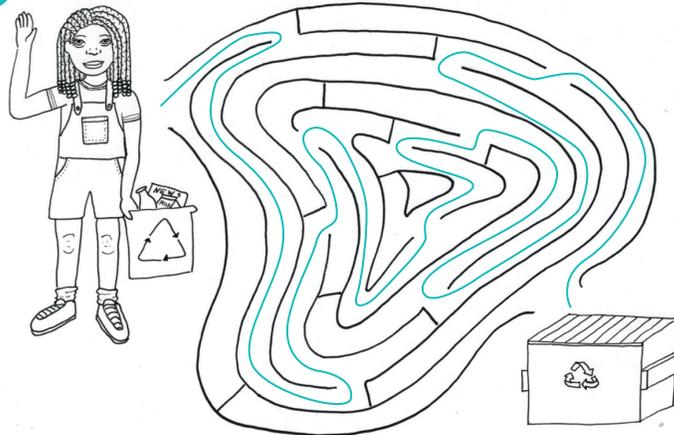

**Step 6:** Flip onto a dish towel and let dry overnight. Voila—you have new paper!
